

Genesis™ Windows and Doors

The more you look...

Genesis™ windows and doors feature an exclusive design of clean visual lines, curved features and rounded edges.

The suite features high quality hardware and components, ensuring reliability now and into the future.

The Genesis™ suite has also been acoustically tested and rated to comply with new energy rating codes.

And the added bonus is that Genesis™ windows and doors are easier to keep clean than traditional residential window and door suites.

The products have fewer cavities and grooves so less places for spiders and dust to accumulate; an ideal solution for any busy household.

Bi Fold Doors

So you're a home owner with a busy lifestyle, work commitments, a family to look after. You may also be building or renovating which means you are trying to fit it all in.

The good news is that Genesis™ windows and doors have been designed with a unique aluminium frame, allowing different products to be integrated together throughout your home saving you time and money.

Genesis.™ The bi fold doors you've been looking for

Well worth looking into...

GENESIS™ BI FOLD DOORS

FEATURES INCLUDE:

- The use of emt™ technology for effortless opening and closing.
- A door which has been designed and manufactured from extensive international research. Techniques have been developed to ensure the product finish is flawless and consistent.
- A strong bottom track where the door is 'guided' when opened and closed.
- A product that has been manufactured using performance seals to prevent air leakage. This allows you to better manage the climate in your home.
- A product that is ideal in an indoor/outdoor lifestyle environment. Place the door at the gateway to a balcony or entertaining area.
- A number of locking options including single and multiple point locks that secure the door at top, middle and bottom.
- The option of multiple door configurations.

Other Genesis™ features include:

- A bottom track which incorporates an easy glide channel® for smooth operation now and into the future.

- A top rolling system that protects rollers from day-to-day damage associated with bottom rolling systems.

- Premium quality smart hinge® hardware that is corrosion resistant.

- A lockable handle that can be fitted onto a pedestrian access door (if applicable).

- Strong flush bolts which secure the door panels. They are fitted with a stylish plastic fascia.

Genesis™ bi fold doors are available in:

Anotech Dark Grey

Magnolia

Pearl White

Primrose
