

Genesis™ Windows and Doors

The more you look...

Sliding Doors

So you're a home owner with a busy lifestyle, work commitments, a family to look after. You may also be building or renovating which means you are trying to fit it all in.

The good news is that Genesis™ windows and doors have been designed with a unique aluminium frame, allowing different products to be integrated together throughout your home saving you time and money.

Genesis™ windows and doors feature an exclusive design of clean visual lines, curved features and rounded edges.

The suite features high quality hardware and components, ensuring reliability now and into the future.

The Genesis™ suite has also been acoustically tested and rated to comply with new energy rating codes.

And the added bonus is that Genesis™ windows and doors are easier to keep clean than traditional residential window and door suites. The products have fewer cavities and grooves so less places for spiders and dust to accumulate; an ideal solution for any busy household.

Genesis.™ The sliding doors you've been looking for

Well worth looking into...

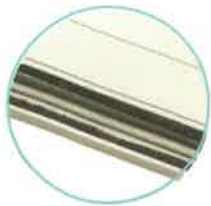

GENESIS™ SLIDING DOORS

FEATURES INCLUDE:

- Performance seals which are incorporated into the door to reduce the transfer of noise and air.
- The installation of a replaceable track. The track is one of the most used sections of the door and if wear and tear occurs, only the replaceable track (rather than the whole door) needs to be replaced.
- The option of having your security or flyscreens fitted to your sliding door during the initial installation or at a later date.
- The Genesis™ sliding door can be double glazed, if required.
- Multi stack configuration is available. A multi stack door is a cost effective alternative to a bi fold door.

Other Genesis™ features include:

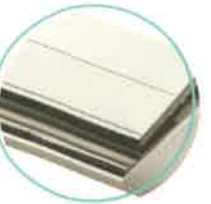

- A door which closes quietly due to the inclusion of a rubber 'bulb seal'.

- The installation of a surface lock is available along with other locking options.

- An anti lift block. This ensures the door cannot be lifted out of the track once the door is closed.

- A frame design with fewer cavities and grooves promoting a cleaner, professional image.

Genesis™ sliding doors are available in:

Anotech Dark Grey

Magnolia

Pearl White

Primrose

Satin Black

Natural Anodised
