

Genesis™ Windows and Doors

The more you look...

Bi Fold Windows

So you're a home owner with a busy lifestyle, work commitments, a family to look after. You may also be building or renovating which means you are trying to fit it all in.

The good news is that Genesis™ windows and doors have been designed with a unique aluminium frame, allowing different products to be integrated together throughout your home saving you time and money.

The Genesis™ suite has also been acoustically tested and rated to comply with new energy rating codes.

And the added bonus is that Genesis™ windows and doors are easier to keep clean than traditional residential window and door suites. The products have fewer cavities and grooves so less places for spiders and dust to accumulate; an ideal solution for any busy household.

Genesis.™ The bi fold windows you've been looking for

genesis

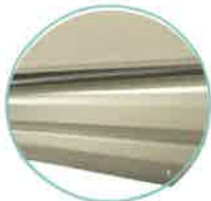

Well worth looking into...

GENESIS™ BI FOLD WINDOWS FEATURES INCLUDE:

- The use of emt™ technology for effortless opening and closing.
- A window which has been designed and manufactured from extensive international research. Techniques have been developed to ensure the product finish is flawless and consistent.
- A strong bottom track where the window is 'guided' when opened and closed.
- A product that has been manufactured using performance seals to prevent air leakage. This allows you to better manage the climate in your home.
- A product that is ideal in a servery environment. Place the window over an entertaining area or balcony and enjoy an indoor/outdoor lifestyle.
- A number of locking options including single and multiple point locks that secure the door at top, middle and bottom.
- The option of double-glazing, if required.

Other Genesis™ features include:

- A bottom track which incorporates an easy glide channel® for smooth operation now and into the future.

- A top rolling system that protects rollers from day-to-day damage associated with bottom rolling systems.

- Premium quality smart hinge® hardware that is corrosion resistant.

- Premium quality hardware that is corrosion resistant and ideal for anyone living near the coast.

- Strong flush bolts which secure the window panels. They are fitted with a stylish plastic fascia.
