

Advice for the Hand Cleaning of Viridian DecorMirror™

Mirrors are spectacular glass items used in areas where good looks are required. A clean mirror looks spectacular and a dirty mirror is far from impressive. The highly reflective nature of mirror highlights any marks and the presence of any scratches on the mirror. So it is important that a mirror is correctly cleaned to ensure it maintains its appearance and is not scratched or damaged by the cleaning process.

Routine Cleaning:

Recommended Cleaning Products:

- Methylated spirits: This must be used strictly in accordance with manufacturer's recommendations and warnings.

Cleaning Procedure:

- While cleaning ensure jewellery and watches are removed and gloves should be worn.
- Wipe a few drops of Methylated Spirits over the surface with a clean, damp cloth.
- Wipe over the surface, ensuring no spillage around the edges.
- Polish the surface dry with a lint free cloth.

Do not use cleaners such as steel wool, scouring bristles or other metallic or abrasive materials as this may scratch the glass.

Some proprietary glass cleaners, if used to excess, can cause damage to the backing as can excessive amounts of water. Make certain when cleaning the face of the Viridian **DecorMirror™** that there is no contact with the backing, particularly at the edge of the glass and be careful to keep any moisture away from the backing of Viridian **DecorMirror™**. Do everything possible to ensure that the cleaning cloths used are free of any abrasives.

About This Cleaning Advice:

This information is offered as a general guide only and specific advice should always be sought from a reputable glazier or professional window cleaner before undertaking any cleaning. This guidance does not preclude the use of other methods, materials or equipment, however the user should undertake

careful evaluation and make suitable enquiries of the suitability of alternative methods, materials or equipment, before using them.
